

Renaissance

See Every Student.

Together with GL Assessment, our solutions help schools and school groups **assess students**, **adapt teaching** and **accelerate learning**.

From Assessment to Action

Connecting data, teaching and learning across a school trust

Exclusive
first look

Renaissance Intelligence

Today is a working session

60 mins

1	Set the context	A brief evolution story	5 mins
2	Share our direction	Why connected assessment, teaching and learning now?	8 mins
3	Experience the flow	Student to teacher demonstration	12 mins
4	Handover the mic 	Rank, discuss and challenge the ideas	25 mins
5	Shape what comes next	Priorities, partnership and next steps	10 mins

Our mission

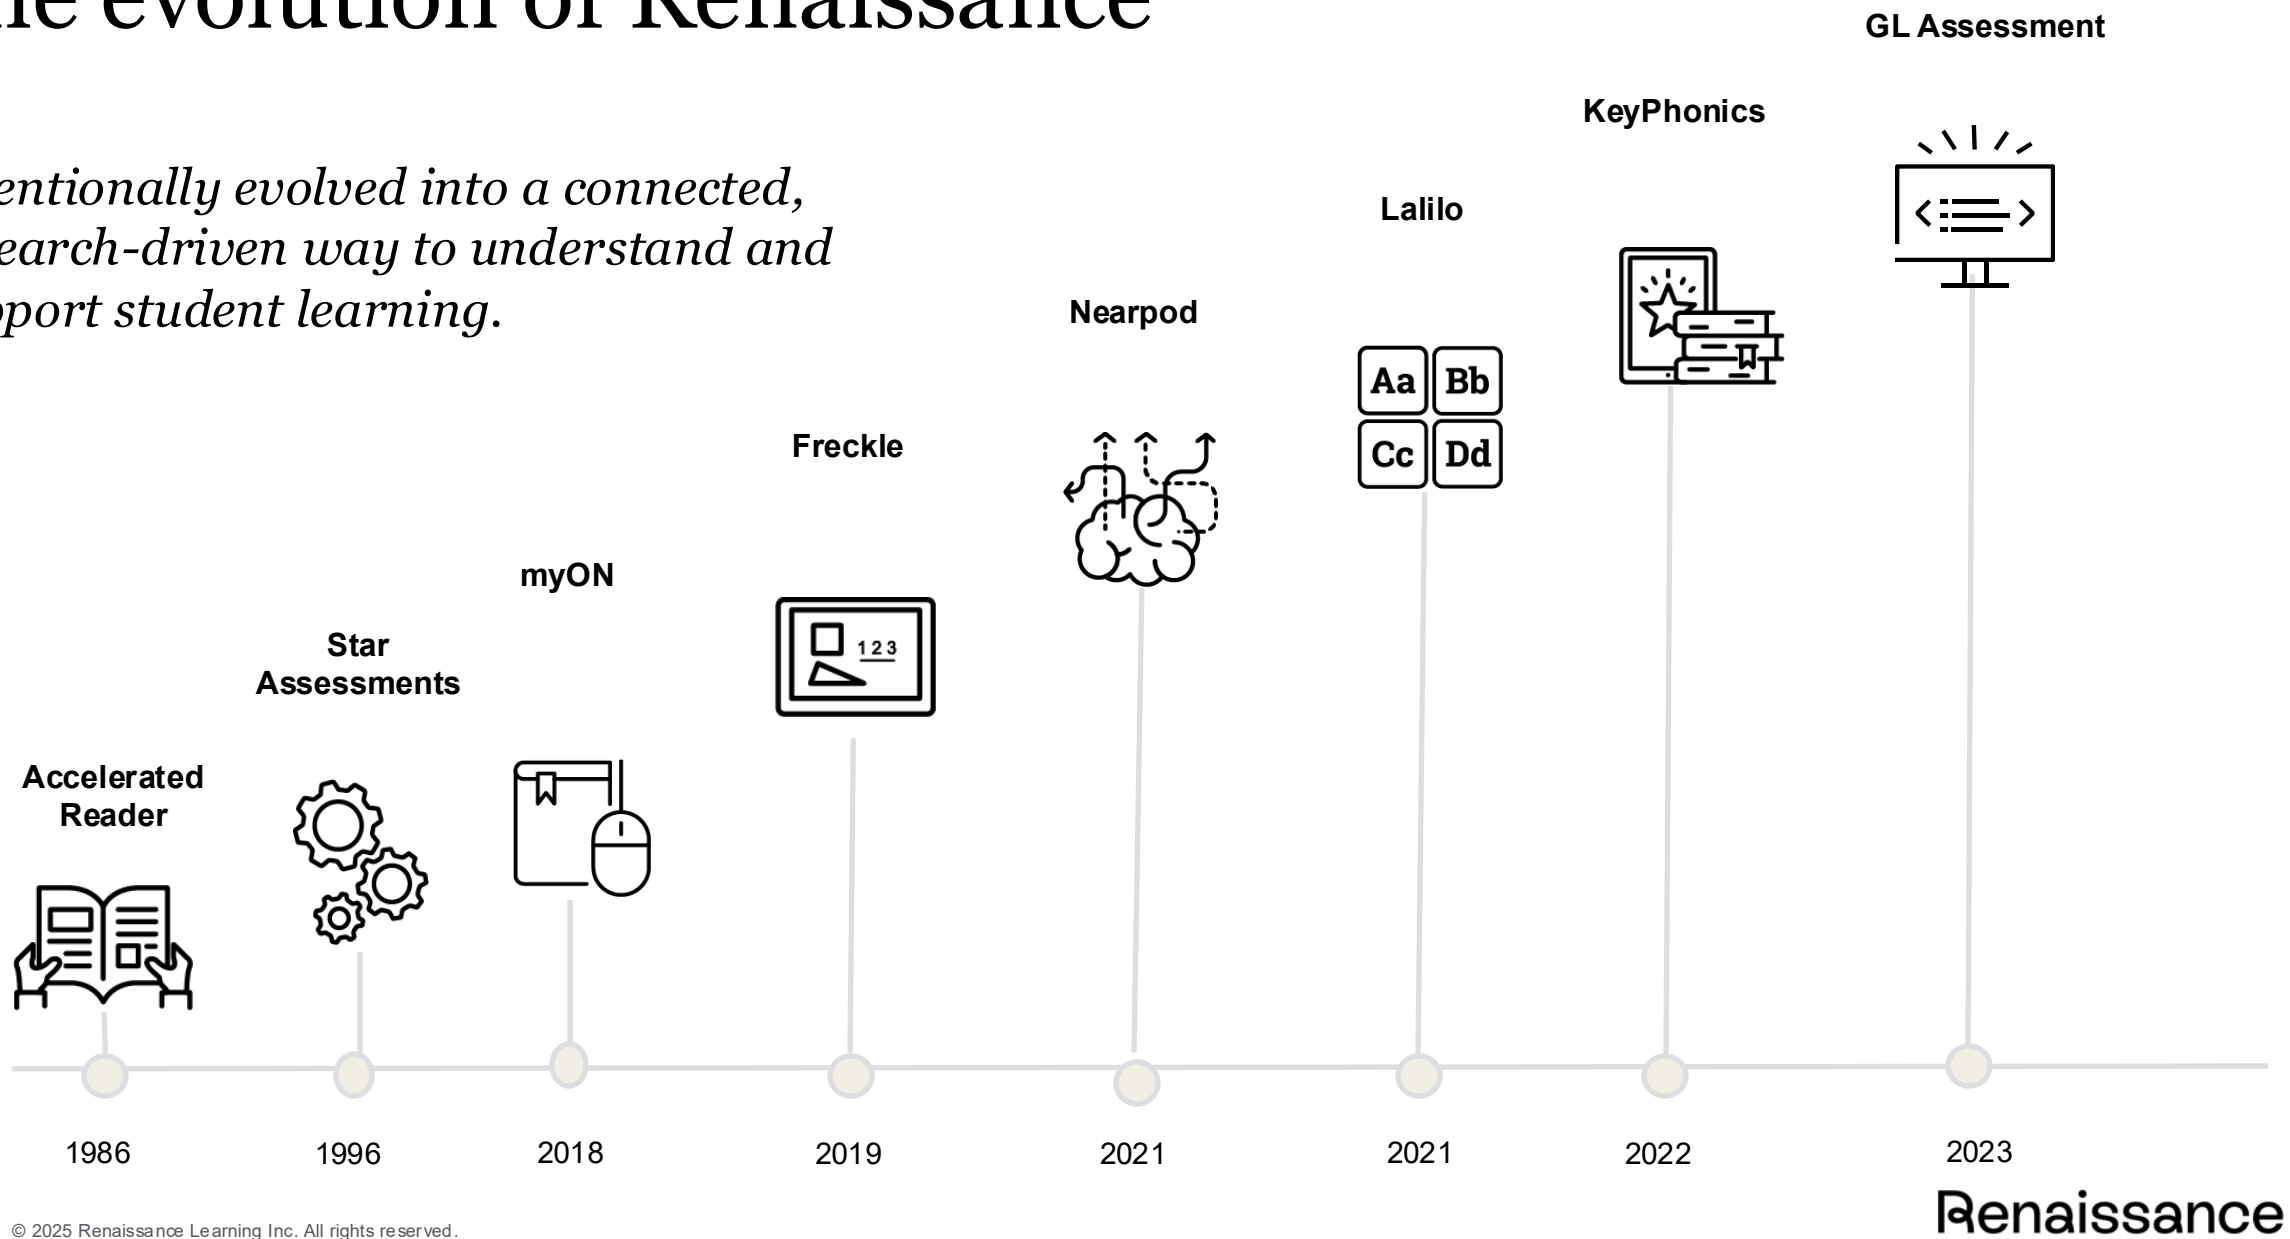

Since 1986, our mission has remained the same:

To accelerate learning for all children and adults of all ability levels and ethnic and social backgrounds, worldwide.

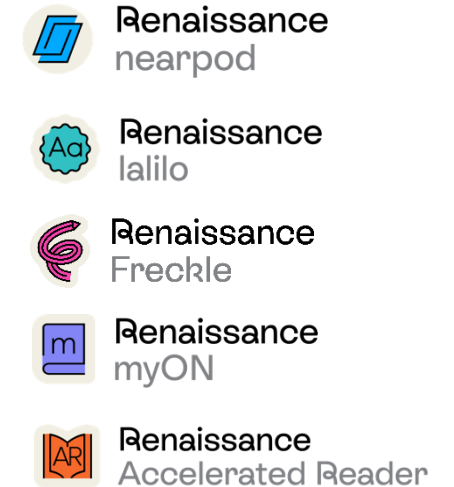

The evolution of Renaissance

Intentionally evolved into a connected, research-driven way to understand and support student learning.

Drive continuous improvement with the Renaissance Ecosystem

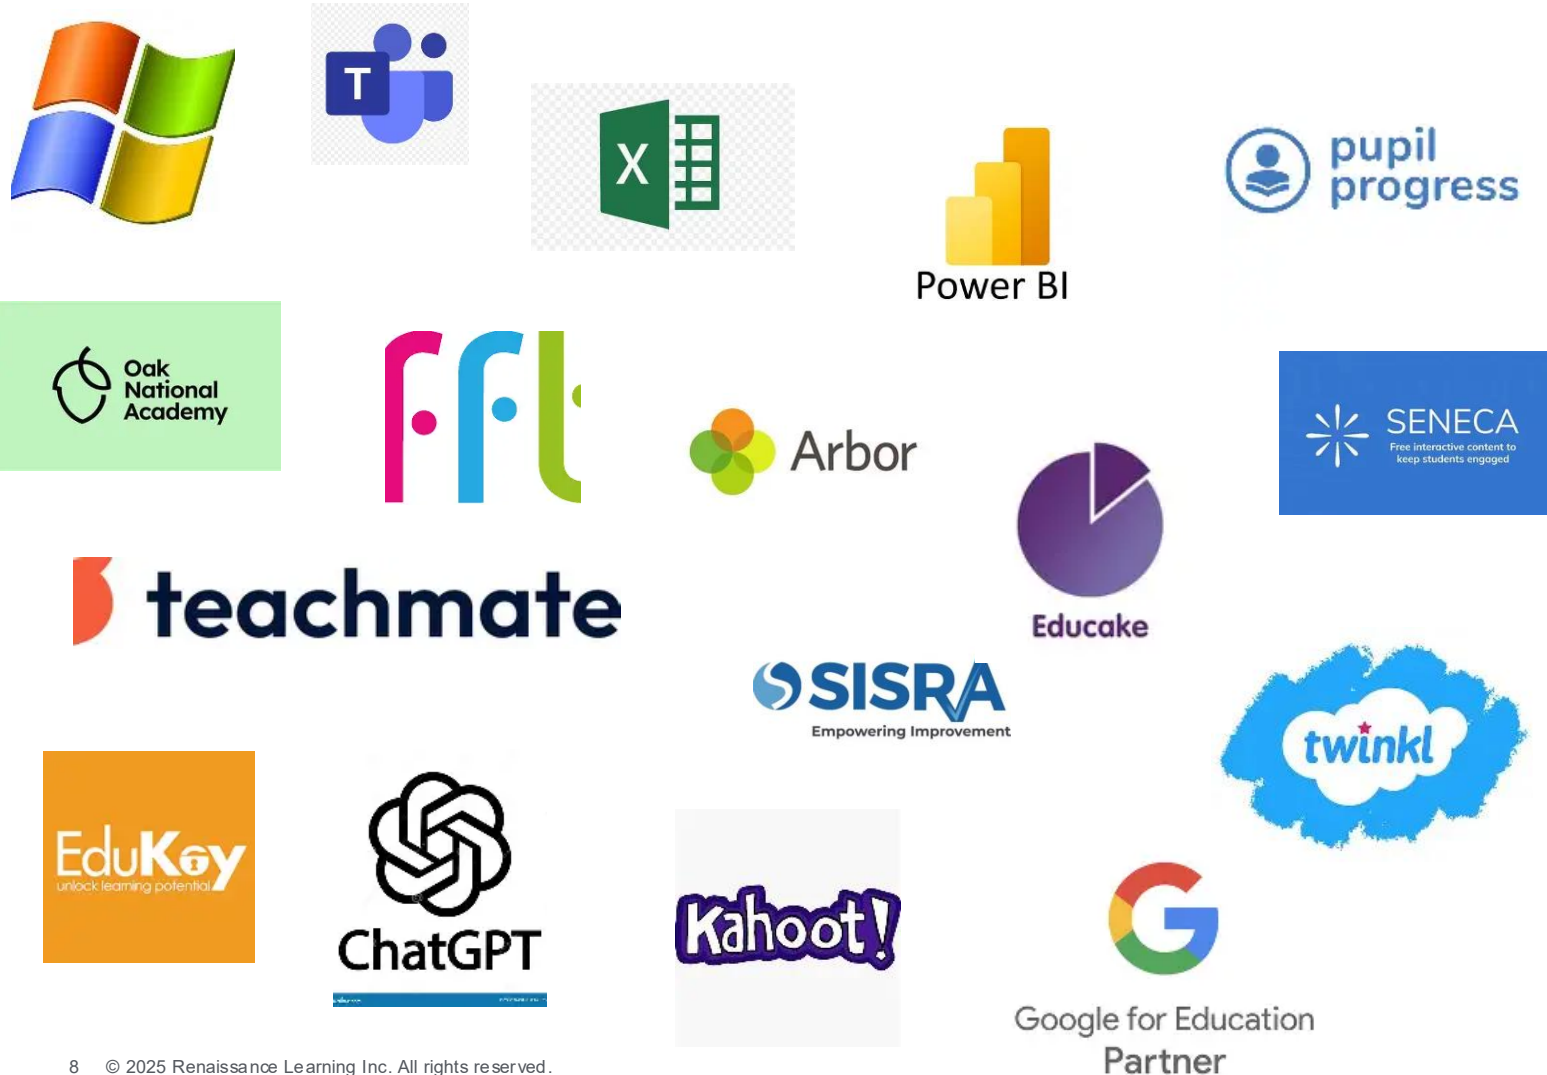

See *Every* Student.

No two children are the same, so
no two children should be *taught*
exactly the same.

How many systems does a teacher typically touch to assess, plan, do, review in your school/ MAT?

Is this your current reality?

- ❓ Assessment, teacher planning and learning resources sit in different places
- ❓ Teachers navigate separate systems and logins to see the whole picture
- ❓ Teachers have lots of information, but identifying and acting on the next steps take time

 **Testwise**

Renaissance

Introducing Renaissance Intelligence

Renaissance Intelligence brings assessment evidence and curriculum goals to teaching and learning through literacy and maths solutions.

Building new connections, not more layers

One connected system

Insights, resources and learning in one intuitive place

Evidence-led practice

A richer understanding of progress, patterns and barriers.

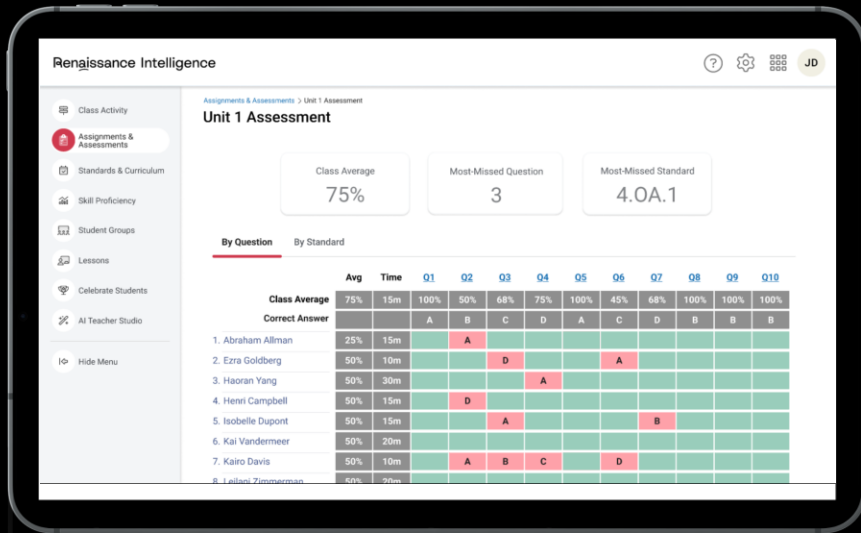

Targeted support

The right support and challenge at the right time

Curriculum coherence

Connecting assessment evidence and curriculum goals to teaching and learning

Built with UK schools, not shifted into the UK

We cannot do this *well* without you

Today

Test the messages, workflow and priorities for development with you

Next

Deepen co-design with interested MATs

Spring 2027

Bring Renaissance Intelligence to UK schools

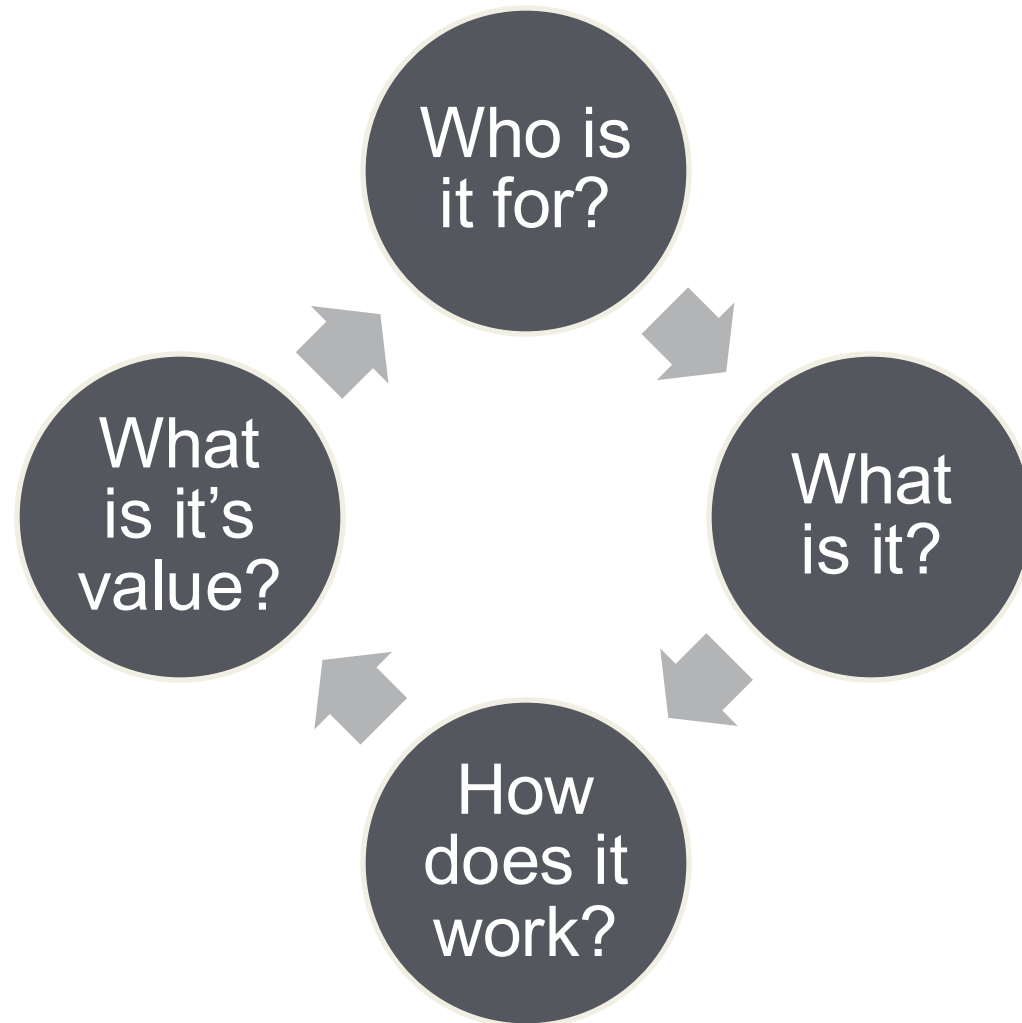

Let's dive in

Demoing the workflow

Teacher: Ren Intelligence - Educator
Student: Ren Intelligence - Student

How would you describe Renaissance Intelligence?

Where would greater connection make the biggest difference?

Rank your top three. Add your own if something important is missing

A clearer picture of
student progress

Earlier visibility of
student needs

More targeted support
and challenge

Stronger curriculum
coherence

More consistent practice
across schools

Less time moving
between systems

Reduced workload and
administration

Trusted, accountable use
of AI

Other:

Day in the life: where does the cycle break?

Roundtable discussion

Teacher

1. Understand need
2. Plan
3. Teach
4. Assess / do
5. Review

Student

1. Access learning materials
2. Do/ practice
3. Get support/ feedback
4. Learn/ progress

Trust leader

1. Assess where we are now
2. Implement change/ improvements
3. Train staff
4. Evaluate impact

You have been given one lens: teacher, student or trust

Discuss:

- Which tools and hand-offs take the most time?
- Where do teachers/students/leaders get stuck or lose momentum?
- What must be solved? What should technology leave alone?
- What matters most to this role?

Introducing Renaissance Intelligence

Unify assessment, instruction, and practice in one system with powerful AI that responds to student performance in real time—turning trusted insights into guidance at scale.

Building new connections, not more layers

Education Intelligence System

Unify assessment, instruction, and practice in one workflow.

Personalisation at classroom speed

Adaptive AI uses current performance to tailor student pathways.

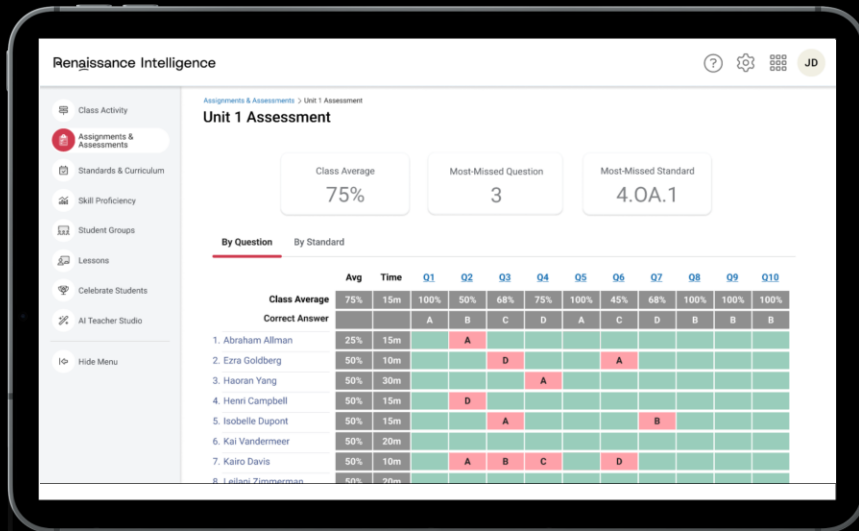

Instructional coherence with flexibility

Maintain coherence and alignment to curricula while personalising teaching.

AI that amplifies teacher expertise

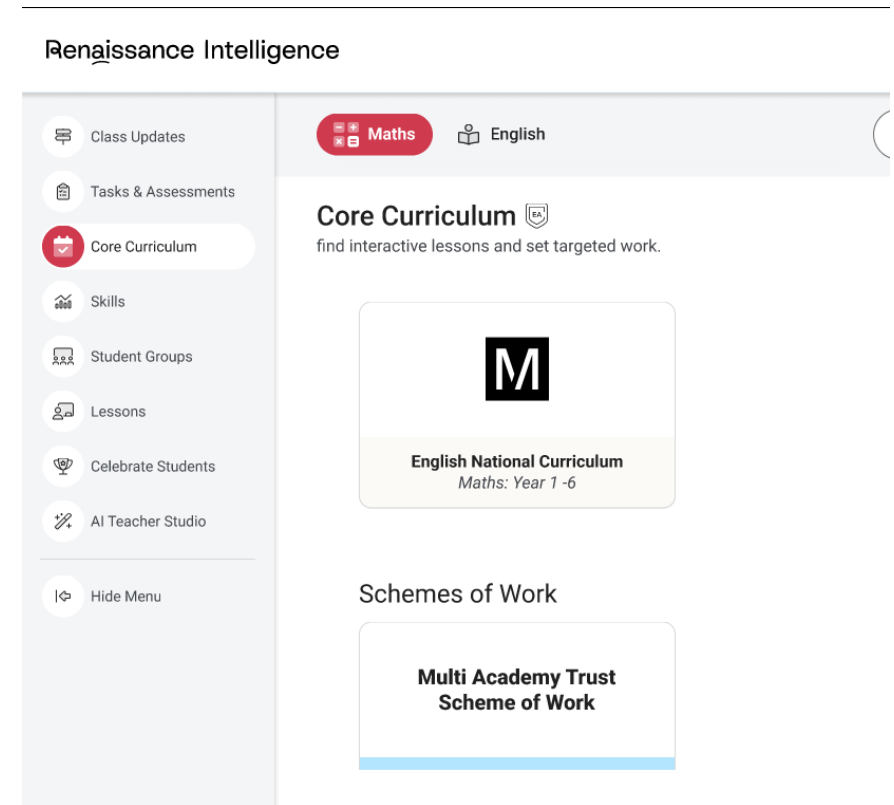

Deliver actionable guidance teachers can use today.

What should be connected next?

The connected experience should work with curriculum and materials schools value across literacy and maths

- How is curriculum delivered across your Trust?
- What is the level of consistency across your schools?
- Which curriculum provider or resource partner should Renaissance prioritise first, and what problem would that solve for teachers/ leaders?

What could make or break adoption?

2-MINUTE PULSE Choose the **ONE** issue that matters most in your trust. Be ready to say why.

Screen time

When does digital add value?

Data security

What would build trust?

Workload

What must genuinely save time?

Professional autonomy

Where must teachers stay in control?

Implementation & change

What would make adoption realistic?

WHY THIS ONE? _____

AI is a tool. Teaching and learning is the purpose

We want to get this right

400+ efficacy studies

Third-party evaluators consistently measure effectiveness.

Billions of assessment data points

We understand how students learn.

Custom skills progressions for every state

We know which skills are most challenging and how students progress in math and ELA.

More than 33,000 schools use Renaissance globally

Build solutions that work for students.

Built *with* schools. Ready for what's next

The Renaissance Story: innovating for 40 years

Born in 1984 from a parent's mission to spark a love of reading.

Today, we work with schools worldwide to support millions of students.

- Billions of data points inform next steps, helping you reach every student in every classroom
- We now serve more than 35 million students
- Trusted by 82,000+ schools in more than 100 countries

Together with GL Education for a broader, standardised insight into ability and progress.
